These levels are designed to work students up toward All-State Levels. Levels 1-6 increase the difficulty levels of pitches by adding pitches, skips, and leaps in major and minor tonalities. The rhythms are easy and do not get harder using only quarter notes and quarter rests.

Levels 7 and 8 are the Georgia 7th and 8th Grade All-State Audition – 1 and 2 levels that are used as examples 1 and 2 in the audition. Those levels get easier for pitches, scaling the difficulty back to only stepwise motion and only using up to 5 different pitches, but increases the difficulty of rhythms by adding 8th notes in pairs, half notes, dotted-half notes, and whole notes.

Levels 9 – 11 gradually increase pitch and rhythm difficulty levels in major and minor tonalities toward Level 12 which is the same as "Georgia 7th and 8th Grade All-State Audition – 3". This is used as the third example in the middle school audition.

After Level 12, the levels are directly taken from the high school All-State audition levels. There could probably be more of a gradual increase between those, so if anyone wants to make more intermediate levels, they are welcome.

Import these levels into your own account, then make them available to your students for practice.

If you are using the Music First Classroom, then follow these steps to make the level available to your students. Basically, any level that is given in an assignment will always be available to students, so you have make or edit one. You don't have to actually give the assignment; you can delete it as soon as you create it.

- 1. First either create or edit a Sight Reading Factory task by selecting "Open in Sight Reading Factory" and then *click the SRF/home icon* to get to the SRF dashboard
- 2. Select 'Practice Settings'
- 3. Select the levels that you would like associated with this class and click 'Save'
- 4. Those levels be available for your students to practice.
